VOLUME CONTENTS

VOLUME 72, No. 1 1991

I. S. Toydorova, V. V. Zabil'skiy and V. I. Sarrak	1	Delayed fracture of marageing steels
N. I. Medvedeva, S. A. Truzhevskiy and V. A. Gubanov	9	Electrical field gradients in $YBa_2Cu_3O_7$
G. A. Malygin	14	Theory of the formation of cellular dislocation structures in metals. II. Multiple slip
A. B. Granovskiy, D. Kh. Imamnazarov and I. Kh. Khalilov	24	Electrical resistivity and the Hall effect of disordered alloys in the coherent potential approximation
A. I. Olemskoy and Ye. A. Toropov	32	Theory of the low-temperature evolution of the orthorhombic phase of high-temperature superconducting oxides
T. M. Sementsova and D. I. Sementsov	40	Galvanomagnetic effects in magnetic films with structural anisotropy of the electrical resistivity
Yu. Yu. Tsiovkin, L. Yu. Vishnekov and A. N. Voloshinskiy	48	Calculation of the concentrational dependence of the residual resistivity of binary alloys in the two-band coherent potential approximation
A. A. Zisman and V. V. Rybin	59	Non-local elastic interaction of second-phase particles in a plastically deformed material
Yu. A. Fedorov	67	Intergranular sliding along a boundary with matching planes
Yu. I. Prokop'yev and B. I. Rezer	73	Local electronic correlations in paramagnetic iron
Yu. G. Lebedev, Ye. I. Rayevskiy and S. V. Zhakov	79	Investigation of stable states of a Néel domain wall in permalloy elements
Yu. A. Izyumov, B. M. Letfulov and Ye. V. Shipitsyn	90	Ferromagnetism in the $(t–J)$-model
Yu. V. Trushin	101	Depletion of irradiated solid solutions
V. S. Boyko, I. N. Sidorenko, E. P. Fel'dman and V. M. Yurchenko	105	The interaction of dislocations with two interfaces in a heterophase medium—continuum analysis and computer simulation
Ye. A. Gan'shina, V. S. Gushchin, S. A. Kirov, I. A. Petrunenko, G. P. Samartseva and V. A. Syein	114	Magnetic, optical and magneto-optical properties and the electronic structure of hard magnetic alloys based on Fe–Cr–Co
L. S. Palatnik, A. V. Manzhosov and I. I. Fal'ko	123	On the enlarged class of Heusler alloys
N. I. Kourov	131	Features of the electronic properties of $GdZn_xCu_{1-x}$ compounds based on the GdCu antiferromagnet
N. M. Knyazev	138	The prediction of grain misorientation in a recrystallized single crystal
N. I. Timofeyev and F. N. Berseneva	147	The influence of dissolved hydrogen on the mechanical properties of alloys of palladium with rhodium
N. Yu. Frolova, V. I. Zel'dovich and Yu. I. Filippov	153	Dilatometric anomalies of the $\alpha \rightarrow \gamma$ transformation in marageing steel caused by ageing under stress
O. G. Zotov, Yu. N. Koval', S. Yu. Kondrat'yev and G. Ya. Yaroslavskiy	161	Investigation of the range of existence of β-phase in the copper–aluminium–zinc system

A. A. Koz'ma, S. V. Malykhin, O. V. Sobol', A. V. Arinkin, L. S. Palatnik, V. I. Pinegin and P. G. Cheremskoy — 168 The long-range effect during surface irradiation

V. G. Gorodetskiy, B. G. Polosukhin, Ye. M. Sulimov, P. I. Novikov and V. P. Bychin — 175 Neutron and gamma-quantum emission from palladium saturated by deuterium in a gaseous phase

I. I. Kositsyna, V. V. Sagaradze, O. N. Khakimova and Yu. I. Filippov — 179 Corrosion-resistant austenitic steel with nitride hardening

V. A. Pavlov, M. V. Popov, V. P. Ketova, V. S. Vakhrusheva, S. V. Atanasov and V. I. Shalayev — 184 The influence of the conditions of deformation and heat treatment on internal friction of austenitic steel

V. M. Mishin, I. V. Kislyuk and V. I. Sarrak — 188 Analysis of the influence of alloying on the cold-shortness point of iron in the Ioffe–Orowan model

N. Ya. Rokhmanov and A. F. Sirenko — 193 Anomalies of internal friction near the Curie point of the carbide phase in the iron–carbon system

N. I. Noskova, Ye. G. Ponomareva and I. A. Pereturina — 198 Features of the dislocation structure of single crystals with bcc lattice before fracture

Short Reports and Letters to the Editor

Yu. F. Ivanov, A. V. Paul', N. A. Koneva, N. V. Dedov and E. V. Kozlov — 206 Electron microscopic analysis of nanocrystalline materials

VOLUME 72, No. 2 1991

Yu. I. Bespyatykh, V. V. Tarasenko and V. D. Kharitonov — 1 The structure of the ground state of a hollow ferromagnetic sphere

A. N. Vakilov and V. V. Prudnikov — 8 Calculation of the adhesion of metals and dielectrics

G. S. Kandaurova, S. D. Mal'ginova and N. I. Vlasova — 18 Phase diagrams and hysteresis properties of ferromagnets with antiferromagnetic defects

D. K. Belashchenko and M. I. Mendelev — 25 Revision of atomic models of amorphous alloys from structural data

P. P. D'yachuk, Ye. V. Larikov and G. O. Patrushev — 36 The coercive force of two-component thin magnetic films

V. V. Nikolayev, M. I. Kurkin and S. V. Ivanov — 41 Features of breakaway of domain walls from non-magnetic inclusions in ferromagnets (axisymmetric model)

V. V. Kirsanov, Yu. S. Pyatiletov, G. T. Temiraliyeva and T. E. Turkebayev — 50 A molecular dynamics investigation of the propagation of cracks in metals and their interaction with point defects

V. I. Beresnev, A. V. Nikitin and B. N. Filippov — 57 The static and dynamic properties of a pair of vertical Bloch lines in a twisted domain wall

Yu. N. Gornostyrev — 64 The phenomenological theory of plastic deformation of non-uniform alloys consisting of "soft" and "hard" regions

Yu. Yu. Tsiovkin, L. Yu. Vishnekov and A. N. Voloshinskiy — 75 The coherent potential approximation for the two-band model of conductivity in transition metals

M. A. Shamsutdinov and B. N. Filippov — 86 Vibrations of a domain wall in a magnetic field in a ferromagnet with non-uniform parameters

O. V. Yermakov, O. I. Kolesova and A. V. Rayevskiy — 96 The kinetics of change of the structure and electromagnetic properties of carbonyl iron

M. Yu. Belyayev, S. Kh. Kurumchina, A. V. Skripov, A. P. Stepanov and N. I. Timofeyev — 101 Nuclear magnetic relaxation in intermetallic compounds $LaRu_2$ and $LaRh_2$

A. A. SENCHENKO, I. I. PIRATINSKAYA, L. P. ZELENIN and YU. A. VERESHCHAGIN — 105 The influence of ordering processes on the electrical and magnetic properties of Pd_xCu_{1-x} ($0.40 \leqslant x \leqslant 0.48$) alloys

S. S. KARNEYEVA, N. P. KOLMAKOVA and D. I. SIROTA — 112 Features of the magnetic properties of $TmFeO_3$ in low magnetic fields

M. A. UYMIN, YE. I. TEYTEL', A. V. SHANGUROV and A. YE. YERMAKOV — 117 Thermal and deformation stability of the τ-phase in hard magnetic MnAl–C alloys

V. G. PUSHIN, G. YE. VEDERNIKOV, V. V. SAGARADZE, L. I. YURCHENKO, S. YA. TUBIN and YE. V. KAPLYUK — 124 Features of the microstructure and superconducting properties of thick $Y_1Ba_2Cu_3O_{7-x}$ films synthesized on ceramic substrates

V. P. BELASH, I. N. KLIMOVA, V. I. KORMILETS and M. F. SOROKINA — 129 Photoelectric spectra and the electronic structure of rhodium

N. A. SKULKINA, M. A. GORLANOVA, O. A. IVANOV and V. A. KATAYEV — 134 An anomaly of the magnetic losses in an amorphous Fe–Si–B–C alloy

B. S. BOKSHTEYN, G. S. NIKOL'SKIY and A. N. SMIRNOV — 142 Grain-boundary segregation of antimony in alloys of the copper–antimony system

V. G. SEREBRYAKOV and E. I. ESTRIN — 147 On the transformation of austenite to martensite during loading

F. N. BERSENEVA, I. A. MIKHAYLOVA and N. I. TIMOFEYEV — 151 The influence of hydrogen on the phase composition and physico-mechanical properties of the membrane palladium-based alloy V-1

O. P. MOROZOV — 157 The relation between excess ferrite precipitation and the upper bainite transformation of austenite in steels

A. V. DOBROMYSLOV and N. I. TALUTS — 166 The influence of transition elements of groups V and VI on the structure of quenched zirconium

S. P. BELYAYEV, V. A. YERMOLAYEV, S. L. KUZ'MIN, M. L. LESKINA, V. A. LIKHACHEV and S. A. PUL'NEV — 174 Deformation of an oriented transformation and the shape memory effect in materials with a thermoelastic and burst-type transformation

YU. N. GOYKHENBERG, D. A. MIRZAYEV, V. A. MIRMEL'SHTEYN, V. YU. VNUKOV and T. G. LOBANOVA — 179 The structure and corrosion-mechanical properties of high nitrogen Cr–Mn steels strengthened by ageing and cold deformation

V. M. SCHASTLIVTSEV, A. I. UVAROV, YE. I. ANUFRIYEVA, I. L. YAKOVLEVA, M. S. KHADYYEV and A. A. KRUGLOV — 186 The influence of thermomechanical treatment on the mechanical properties and recrystallization kinetics of slowly cooled marageing steels

YE. G. PONYATOVSKIY, O. N. SEN'KOV and I. O. BASHKIN — 194 The mechanical properties of titanium alloy VT20 in different initial states during hydrogenation

Short Reports and Letters to the Editor

V. A. TRAPEZNIKOV, V. A. SOSNOV, I. N. SHABANOVA and A. T. GAYVORONSKIY — 201 Electron emission from cerium, praseodymium, neodymium and samarium under pressure

R. S. BARYSHEV, L. A. AKASHEV, B. V. MITROFANOV, V. I. KONONENKO and S. B. BORISOV — 205 An ellipsometric investigation of the optical properties of TiN_x

T. N. GOLOSOVA, M. I. SLOBODSKOY and L. YE. POPOV — 209 Distribution of the time of formation of a dislocation loop

B. V. PETUKHOV — 213 Criterion for manifestation of the Portevin–Le Chatelier effect in materials with the Peierls plasticity mechanism

VOLUME 72, No. 3 1991

A. I. OLEMSKOY and YE. A. TOROPOV — 1 Theory of the amorphous state

A. N. VARAKSIN, A. A. ZHIVODEROV, N. B. BONDARENKO and V. F. SHIPITSIN	25	Computer simulation of phase transitions in palladium deuteride (a possible mechanism of low-temperature nuclear fusion)
A. V. VEDYAYEV, A. A. ABDURAKHMANOV, E. S. GAVRILOV and Z. G. BUCHAYEVA	30	The electronic and magnetic structure of NiCu alloys: many-band combined CPA–LKAO model
I. I. KRYUKOV	38	The hysteresis properties of a local region in an amorphous–crystalline alloy
A. S. LAZARENKO, V. B. RABUKHIN and V. V. SLEZOV	48	Local migration of grain boundaries near triple junctions during diffusion creep
A. S. LAZARENKO, V. B. RABUKHIN and V. V. SLEZOV	54	Concerning the formation of a junction disclination at a triple junction of boundaries under conditions of low-temperature diffusion creep
N. A. ZIMBOVSKAYA, V. I. OKULOV, N. G. BEBENIN and N. S. YARTSEVA	57	Quantum oscillations of rates and coefficients of absorption of circularly polarized ultrasound in a compensated metal during interaction with a spiral wave
S. YE. LANGVAGEN, O. P. LYUBASHEVSKIY and P. YE. CHIZHOV	64	The magnetic properties of fine particles of Fe–Ni alloys
V. S. ZHIGALOV, A. V. ZHURAVLEV and G. I. FROLOV	69	Temporal instability of the magnetic properties of amorphous Dy–Co films
V. A. GONCHAROVA, G. G. IL'INA, L. S. SMIRNOV and O. B. TARASOVA	76	The elastic properties of the $Ti_{70}Zr_{30}$ alloy under pressure up to 8.4 GPa
I. G. KILIPTARI and M. I. KURKIN	82	The influence of non-resonance excitation on the shape of echo signals in magnets
S. V. MAMAYEV, V. I. LEVIT, M. V. DEGTYAYEV and T. I. CHASHCHUKHINA	89	The magnetic properties and structural state of deformed metastable austenitic alloys 50G13 and 50N20
YA. D. KOROL', A. D. RUD' and A. I. USTINOV	94	The crystal structure of the α-phase in Co–Ge and Co–Si alloys
V. V. KOKORIN and V. V. MARTYNOV	101	Sequential formation of martensitic phases during uniaxial loading of single crystals of alloy Ni_2MnGa
S. V. SUDAREVA, YE. P. ROMANOV, T. P. KRINITSINA, I. L. KERYAGINA, N. YE. KHLEBOVA, YU. V. ILYUKHIN and A. D. NIKULIN	109	Electron microscopic and X-ray diffraction investigation of decomposition of the $YBa_2Cu_3O_{7-\delta}$ system as a function of cooling rate from sintering temperature
V. D. SUKHANOV and T. S. BOYARSHINOVA	117	Continuous complex reactions of ordering and decomposition in ordering alloys based on Cu_3Au
V. D. SUKHANOV and T. S. BOYARSHINOVA	126	Discontinuous complex reactions in ageing alloys based on Ni_2V and CuPd
V. A. MAKAROV, M. A. ARTSISHEVSKIY, YU. V. BALDOKHIN, A. I. ZAYTSEV, YE. I. MAL'TSEV, V. V. SADCHIKOV, V. P. OVCHAROV and V. V. SOSNIN	133	Structure, phase composition and properties of nanocrystalline magnetic alloys. Mössbauer, electron microscopic and magnetic investigations
V. I. KRYSOV and S. K. KRYSOVA	144	The kinetics of structural relaxation of the amorphous alloy $Ni_{80}P_{20}$ under high pressure
S. Z. BOKSHTEYN, YU. I. ZAKHAROV, N. P. ZYULINA and O. V. MARKOVICH	149	Kinetics of structural changes, diffusion processes and the mechanical properties of titanium alloys of the transitional class after thermal cycling treatment
A. YE. TEPLYKH and A. Z. MEN'SHIKOV	157	Structural changes during annealing of high-nickel γ-FeNiCr alloys

S. V. Baguzin, I. A. Rusakova, A. V. Suyazov, M. P. Usikov and A. P. Khandarov — 164 Thermal stability of the granular structure in austenitic alloys quenched from the liquid state

I. Ye. Kurov, G. I. Shakhalova, A. I. Yevplov and Ye. N. Lapshina — 173 The influence of prior pulsed compression on the lifetime and structural changes of aluminium under load

A. A. Popov, N. G. Rossina and N. A. Drozdova — 181 The structure and mechanical properties of thin electrolytic copper foil

A. V. Gektin, I. V. Gektina and F. F. Lavrent'yev — 187 The relation between kink formation and twinning in zinc single crystals

Short Reports and Letters to the Editor

A. V. Belyanushkin, G. K. Mal'tseva and G. V. Shcherbakov — 190 The influence of a magnetic field on the plasticity of alloys of cadmium with lead

S. I. Masharov, A. F. Rybalko and D. A. Safarov — 193 Possible anomalies of the solubility of gases in metals

V. S. Zotov, Yu. A. Kurinyy and V. D. Mon'kin — 197 Nuclear gamma resonance in beryllium single crystals

O. P. Maksimkin and D. Kh. Sadvakasov — 201 Influence of deformation rate on the martensitic transformation and mechanical properties of neutron-irradiated steel 12Kh18N10T

A. V. Soldatov, T. S. Ivanchenko and A. Biankoni — 205 Xanes investigation of metallic palladium by multiple scattering

VOLUME 72, No. 4 1991

Ye. V. Sinitsyn — 1 Orientational transitions and spin excitations in compounds with competing magnetic anisotropy

Sh. Sh. Ibragimov, D. V. Kamshilin, Yu. S. Pyatiletov and O. G. Tyupkina — 32 Calculation of deformation curves in the barrier model with allowance for dislocation multiplication by the Frank–Read mechanism

O. V. Nazarova, N. P. Fokina and K. O. Khutsishvili — 38 Influence of a spin resonator on nuclear stimulated echo signals in magnets

T. G. Vozmishcheva, I. A. Murtazin and Ye. I. Salamatov — 44 Calculation of heat of transport due to thermal expansion of the lattice

V. A. Komarov, R. S. Il'yasov and V. V. Merzlyakov — 48 The electromagnetic-acoustic transformation during the spin-reorientation transition in iron

B. M. Letfulov and Ye. V. Shipitsyn — 55 Ferromagnetism in the (t–J) model. Finite temperatures

V. Yu. Novikov, Ye. A. Zalem and Yu. A. Smirnova — 62 Metric and topological parameters of the microstructure during abnormal grain growth

I. G. Ratishvili — 69 Orientational model of the ordering of hydrides

V. V. Kirsanov, M. V. Musina and V. V. Rybin — 82 The occupation of vacancies and vacancy clusters by helium and hydrogen in α-Fe

V. M. Fedosyuk, M. U. Sheleg, N. N. Kozich and L. N. Makutina — 91 Losses on rotational hysteresis in Co–Ni–W films

M. U. Sheleg and V. M. Fedosyuk — 95 Numerical analysis of the remagnetization process and magnetic inhomogeneities in hard magnetic films of Co–Ni–W alloys

B. Ye. Vintaykin, I. G. Sapkova, V. A. Golikov and V. V. Dudarev — 100 On the "ferromagnetic sponge" type structure in alloys of the Fe–Cr–Co system

PCHH 72:6-H

N. A. SMOLANOV and K. N. NISHCHEV — 106 — Change of the structural state and magnetic susceptibility of a eutectoid zinc–aluminium alloy during thermomechanical treatment

V. V. RYBIN, YU. F. TITOVETS and YE. V. VORONINA — 113 — Morphological and crystallogeometric features of evolution of the grain structure of high-purity aluminium at the stage of secondary recrystallization

M. A. KRISHTAL and S. G. PRASOLOV — 123 — Investigation of Kirkendall and Frenkel effects in many-layer specimens of the iron–chromium and nickel–chromium systems

I. L. BARMINA, O. K. BELOUSOV and S. P. KULAGIN — 131 — Structural investigation of the phase transition in TiNi

V. G. PUSHIN, S. G. BLINOV and L. I. YURCHENKO — 138 — Pre-transition states in atomically ordered metastable Fe_3Pt alloys

YE. V. BELOZEROV, N. M. KLEYNERMAN, T. P. LAPINA, L. M. MAGAT, V. V. SERIKOV and YE. I. TEYTEL' — 145 — Thermostable magnets of a system for hysteresis motors

M. B. BRONFIN, E. N. DARCHINOV and N. A. PROTASOVA — 152 — X-ray crystallographic investigation of the change in degree of perfection of single-crystal turbine blades during use

V. A. GOL'TSOV and YU. A. ARTEMENKO — 158 — Investigation of the kinetics of isothermal hydride transformations in the thermodynamically open palladium–hydrogen system

V. V. SHKATOV and A. P. CHERNYSHEV — 167 — The kinetics and mechanism of formation of structureless cementite during the eutectoid decomposition of austenite in low-carbon steel

V. I. IZOTOV, S. I. TISHAYEV and M. M. DOBATKINA — 173 — The structure of "degenerate" pearlite and its influence on the mechanical properties of low-carbon low-alloyed steel

V. I. SARRAK, S. O. SUVOROVA and G. N. GRIKUROV — 182 — Mechanism of influence of the alloying elements on the plasticity of alloys of the iron–chromium–manganese system with austenitic structure

M. M. KRISHTAL and D. L. MERSON — 187 — The influence of the geometric parameters of a specimen on the mechanical properties and acoustic emission during discontinuous flow in Al–Mg alloys

Short Reports and Letters to the Editor

V. N. MAL'TSEV, G. S. KANDAUROVA and V. KH. OSADCHENKO — 194 — Refraction and reflection of light by a domain wall

A. V. GEKTIN and I. V. GEKTINA — 198 — Diagrams of the structural states of zinc single crystals deformed in conditions in which basal slip is prohibited

YU. A. DURASOVA, O. S. KOLOTOV and T. N. LETOVA — 200 — On the size of the dynamic domains which arise during pulsed remagnetization of thin polycrystalline magnetic films

A. S. SOLOV'YEV, N. A. MANAKOV and YE. V. KRASNIKOVA — 203 — The magnetic properties of Y–Fe–B films

YU. F. IVANOV and E. V. KOZLOV — 206 — Morphology of cementite in the martensitic phase of steel 38KhN3MFA

L. P. GUN'KO, V. V. KOKORIN and O. M. SHEVCHENKO — 209 — The martensitic $\gamma \rightleftarrows \alpha$ transformation in ageing alloys based on Fe–Co

VOLUME 72, No. 5 — 1991

A. YE. YERMAKOV — 1 — Solid-phase reactions, non-equilibrium structures and magnetism of 3*d*-compounds with different types of chemical bond

G. A. MALYGIN	40	Concerning the similarity principle of cellular dislocation structures in metals
M. D. STAROSTENKOV	47	Anisotropy of energy of formation of antiphase boundaries in Ll_2 alloys
L. A. YUDINA, G. S. KRAYNOVA, L. N. SOVETNIKOVA and V. V. YUDIN	56	Features of the stochastic magnetic structure of laser-sputtered amorphous Tb–Fe films
N. V. BARANOV, YE. A. BARABANOVA and A. I. KOZLOV	65	The effect of partial substitution of rhodium on the magnetic and electrical properties of the FeRh alloy
V. F. TIUNOV, B. K. SOKOLOV and V. V. GUBERNATOROV	71	The effect of deformed bands on the dynamic behaviour of the domain structure and magnetic losses in Fe–3 wt% Si crystals
YU. R. NEMIROVSKIY, M. S. KHADYYEV, V. V. POLEVA and V. P. LESNIKOV	77	Borides of the type M_5B_3 in creep-resistant nickel alloys with ~5 and 15–20 wt% chromium
T. P. KRINITSINA, YE. N. POPOVA, S. V. SUDAREVA, YE. P. ROMANOV, A. D. NIKULIN, A. K. SHIKOV and A. YE. VOROB'YEVA	82	Natural and artificial ageing of bronzes used as the matrix in Nb_3Sn based composites
I. N. RAZUVAYEVA, A. A. BABAREKO, V. N. KOPYLOV, G. V. MEDVEDEVA and N. M. DOBRODEYEVA	90	Structure and texture formation of a pseudo-α alloy of titanium after rolling in the $(\alpha + \beta)$-range
I. G. ZAKREVSKIY, L. YE. KOZLOVA, I. V. FEOFILOV, V. A. CHERNENKO, O. M. SHEVCHENKO and V. M. KACHALOV	99	Phase changes in Fe–Ni–Co–Ti ribbon obtained by spinning from the melt
E. V. KULMANEN, A. A. PRESNYAKOV, R. K. AUBAKIROVA, A. S. DEGTYAREVA and T. V. ZHUMARTBAYEVA	103	X-ray crystallographic investigation of a quenched lead–tin eutectic melt
B. I. NIKOLIN and T. L. SIZOVA	108	The effect of carbon, copper and niobium on the crystal structure of the martensite in Co–Fe, Co–Ni alloys
YE. A. BALINA, P. V. GEL'D, L. P. ANDREYEVA and L. P. ZELENIN	113	The kinetics of ordering and disordering in $Pd_{45}Cu_{55-x}Me_x$ alloys (Me:Co, Ga)
A. A. POPOV, O. A. YELKINA and A. V. TRUBOCHKIN	120	Influence of the precipitation of silicide particles on the properties of a dual-phase titanium alloy
YU. YA. MESHKOV, S. N. SEDYKH, I. S. STATSENKO and V. M. SCHASTLIVTSEV	127	A comparative analysis of the mechanisms of brittle fracture in high-duty alloyed and carbon construction steels
V. A. UDOVENKO, N. A. POLYAKOVA and A. T. TURMAMBEKOV	133	Structure and damping properties of fcc manganese–copper alloys
F. N. BERSENEVA, G. P. ZHMURKO, S. V. NEUYMINA and N. I. TIMOFEYEV	141	Mechanical properties of hydrogen permeability of palladium–platinum alloys modified by niobium and tantalum
A. A. PRESNYAKOV, A. S. DEGTYAREVA and T. A. UMURZAKOV	146	"Cord" deformation during tension of specimens
YU. A. PERLOVICH, V. A. FESENKO and YU. I. CHUMLYAKOV	152	Texture development during rolling of titanium–nickel single crystals and the mechanisms of plastic deformation
L. YE. KAR'KINA, M. V. PONOMAREV, O. V. ANTONOVA and YE. I. TEYTEL'	163	Electron microscopic investigation of the direction of dislocation lines
A. T. KOLOMIYETS, A. N. RAKITSKIY, A. N. GRIPACHEVSKIY, V. V. GORSKIY, YU. I. ROGOVOY and V. E. KHACHIKYAN	173	Influence of annealing on structural-phase transformations and the mechanical properties of a layered Cr–V composite
R. A. ADAMESKU, A. I. GORDIYENKO, R. S. NOVIK and M. V. FROLOVA	178	The texture and mechanical properties of titanium alloy VT32

A. I. Uvarov, V. G. Pushin and S. G. Blinov — 182 Influence of cold plastic deformation on the structure and mechanical properties of austenitic steel 40G11N10Yu5F

Short Reports and Letters to the Editor

S. I. Ivanov and Ye. V. Sinitsyn — 190 The tunnelling mechanism involved in superparamagnetism of single-domain microparticles

Yu. F. Ivanov and E. V. Kozlov — 194 Investigation of the influence of the austenitization parameters on the morphology of the martensitic phase of steel 38KhN3MFA

V. N. Kaygorodov and S. M. Klotsman — 199 On the structure and properties of the core of defects such as dislocations and grain boundaries in metals

VOLUME 72, No. 6 CONTENTS 1991

L. L. Buishvili, A. N. Melikadze and A. I. Tugushi — 1 Nuclear relaxation in two-sublattice antiferromagnets with the anticipation of two-level systems

A. I. Mitsek — 5 Temperature dependence of layer exchange interaction in magnetic films

I. A. Lubashevskiy, V. L. Alatortsev and K. P. Gurov — 11 Features of reactional diffusion in polycrystals

L. Ye. Popov, V. S. Kobytev, S. N. Kolupayeva and G. V. Kobyteva — 20 The generation of point defects during the interaction of glissile dislocations and grain boundaries

S. I. Shneyder and Ye. V. Sinitsyn — 26 Macroscopic quantum tunnelling in single domain ferromagnetic and antiferromagnetic microparticles

Ye. V. Ivanova, I. I. Yakimov and M. I. Bartashevich — 34 Influence of structural features of rapidly quenched $R_{33}Fe_{67}$ alloys on the hysteresis properties

V. M. Fedosyuk, O. I. Kasyutich and N. N. Kozich — 40 The magnetic properties of multilayered Co/Cu films

N. I. Kourov and Yu. G. Karpov — 47 The diffusional thermal e.m.f. and electrical resistivity of $GdZn_xCu_{1-x}$ compounds

A. A. Glazer, N. M. Kleynerman, V. A. Lukshina, A. P. Potapov and V. V. Serikov — 53 Thermomechanical treatment of the nanocrystalline alloy $Fe_{73.5}Cu_1Nb_3Si_{13.5}B_9$

M. A. Libman, F. I. Stetsenko, V. S. Boruta and N. N. Potapov — 59 The dynamic characteristics and parameters of the micromagnetic structure of hard magnetic Fe–Cr–Co based alloys

A. N. Cherepanov, V. V. Marchenkov and V. Ye. Startsev — 62 Galvanomagnetic properties of molybdenum single crystals in the presence of the static skin effect in strong magnetic fields

B. S. Bokshteyn, L. M. Kaputkina, G. Kovachev, Yu. B. Levin and G. S. Nikol'skiy — 71 Kinetics of decay of excess volume in amorphous cobalt-based alloys

V. Yu. Gertsman, O. V. Mishin, O. K. Korotkova, S. V. Averin and V. A. Safonov — 77 Investigation of distributions of grain boundaries, dislocations and precipitates in stainless steel 04Kh17N14M3G2

G. Ye. Abrosimova, S. K. Krysova, V. I. Krysov and Zh. D. Sokolovskaya — 84 Evolution of the structure of amorphous alloy $Co_{70}Fe_5Si_{15}B_{10}$ during pre-crystallization annealing

A. V. Dobromyslov and N. I. Taluts — 89 The structure of alloys of the Zr–Hf system

L. A. RODIONOVA, YE. N. POPOVA, S. V. SUDAREVA, YE. P. ROMANOV, N. V. NIKOLAYEVA, A. YE. VOROB'YEVA, YE. A. DERGUNOVA, O. V. MALAFEYEVA, A. D. NIKULIN, K. A. MAREYEV, N. YE. KHLEBOVA and A. K. SHIKOV — 96 Electron microscopic investigation of the structure of Nb/Cu–Sn composites with titanium modified niobium cores

I. V. LYASOTSKIY and D. V. SHTANSKIY — 107 Experimental investigation of the kinetics of austenitization of pearlite during laser heating of alloyed steels of type ShKh15

V. A. SHABASHOV, V. V. SAGARADZE, S. V. MOROZOV, G. A. VOLKOV and T. M. LAPINA — 115 The influence of cold plastic deformation on the behaviour of the carbide phase in aged austenitic steel 50N31F2

T. F. VOLYNOVA, I. Z. YEMEL'YANOVA, V. M. MNASIN, A. N. SVOBODOV and I. B. SIDOROVA — 126 Structure formation of alloys of the Fe–29Mn–Al–C system during sputtering and hot extrusion

N. N. GOLIKOVA, A. S. LAPTEVSKIY, G. M. GUSHCHIN and V. I. SYUTKINA — 136 Phase transformations in the system of palladium–copper–platinum alloys

A. T. KOSILOV, G. K. POLNER and G. I. BAGINA — 141 The influence of external stresses and phase transitions on the pseudoelastic properties of the γ_1'-phase of Cu–Al–Ni single crystals

T. V. ETERASHVILI — 145 The location of microcrack formation and stress relaxation in construction steels with packet martensite structure

YE. E. GLIKMAN, V. P. MOROZOV and YE. V. MINDUKSHEV — 151 Fracture of α-Fe during hydrogenation in the absence of applied stress. I. Influence of hydrogen on fracture toughness

YE. E. GLIKMAN, V. P. MOROZOV and YE. V. MINDUKSHEV — 157 Fracture of α-Fe during hydrogenation in the absence of external stress. II. Fractography and the fracture mechanism

Short Reports and Letters to the Editor

N. A. MANAKOV and M. A. POCHERNIN — 164 On the question of nucleation in highly anisotropic magnets

A. L. IVANOVSKIY, V. M. CHERKASHENKO, S. Z. NAZAROVA and V. V. SHUMILOV — 166 On the ratio of band intensities in X-ray emission spectra of mixed carbides $M_I M_{II} C$

S. A. BARANOV, S. K. ZOTOV, V. S. LARIN and A. V. TORKUNOV — 170 Features of natural ferromagnetic resonance in an amorphous microwire

M. A. SHTREMEL' and D. YE. KAPUTKIN — 173 The role of vacancies in martensite decomposition
